“IES Foundation Year provides an innovative environment and promotes mutually respectful relationships.”

I joined IES Foundation Year because it is a pathway to one of the most prestigious universities in the world, The University of Queensland. My aim is to contribute to the scientific field and serve humanity by opting for medicine as my career goal.

IES Foundation Year provides an innovative environment and promotes mutually respectful relationships. It's exciting to interact with people from diverse nationalities.

The program will provide you with an excellent preparation for The University of Queensland. Exposure to different cultures by travelling to various countries and knowing English as a second language will make it easy to understand and adapt to the Australian culture and lifestyle.
